New Electronic Manuscript Submission and Tracking System

Strahlentherapie und Onkologie is pleased to announce the launch of its new electronic manuscript submission and tracking system. The system will begin 1 March 2011. It is our hope that authors will submit manuscripts via this route.

Strahlentherapie und Onkologie will continue to accept hard copy manuscript submissions until 31 May 2011, and these should be addressed to the Editor-in-Chief. After 1 June 2011, *Strahlentherapie und Onkologie* will only accept online submissions. The new Editorial Manager System is fast, efficient, and provides step-by-step instructions on how to submit your paper. The online submission and editorial manager system provides the following notable benefits:

- *Easily accessible anywhere in the world.* You can login to submit your paper or revisions wherever you have access to the Internet.
- *Disks and hard copies are no longer required.* Online submission provides automatic conversion of source files to one PDF file – a document that is guaranteed to look the same on any computer worldwide.
- *Speeds up the peer review and publication process.* Provides online submission for authors, which in turn provides a faster, more efficient seamless link from submission through the editorial and peer review process, right through to publication.

- *Your data are safe.* Data are held on our central servers that are regularly backed up, so there is no need to worry about loss of data.
- *It saves you money.* No need for expensive priority mail charges. The submission system is instantaneous, with the Editor-in-Chief receiving your submission as soon as you upload and verify the submission.

For further information and to submit your paper online, visit either

www.editorialmanager.com/suon or
www.springer.com/medicine/radiology/journal/66
and follow the link *Submit Online*

If you have not previously submitted a manuscript to *Strahlentherapie und Onkologie* online, you will be required to register first; however, returning authors can simply login and begin submission.

We look forward to receiving your work online!

Erlangen, 28 January 2011

Rolf Sauer,
Editor-in Chief
