Unfortunately, Fig. 1 was printed in black and white instead of in colour. The correct version appears below:

Fig. 1 The layout of the study. Persons in the study are those diagnosed inside the triangular grid and alive at the end of 2003. Persons dying before the end of 2003 are not in the database. Each subset of the grid is further subdivided in 12 sub-groups by month of birth for analysis of seasonality. Male: *blue*, female: *red*
