The staff of the Editorial Office regret that this paper was published online before the authors' corrections were implemented. Changes are shown in colour.

- 1) The correct affiliation for D. R. Witte is listed below.
- 2) The third sentence of the Results section of the Abstract should read:

The cancer incidence rate ratio was higher among patients using insulin, decreasing from 5 at the start of insulin treatment to **1.3** after 5 years of insulin use.

- 3) The final sentence of the third paragraph of the 'Linkage and tabulation' section of the 'Methods' should read:

Follow-up in the two diabetic categories was further subdivided by time since inclusion in the register (diabetes duration), and by time since the second insulin purchase (insulin duration), in intervals of length 3, 6, 12 and 24 months, as illustrated in Fig. 2 **in the ESM**.

- 4) In the 'Methods' the last paragraph of the 'Statistical model and analysis' section entitled 'Model for the rate ratio' should read:

The rate ratio is shown graphically by duration of diabetes for diabetic patients not taking insulin, as well as for diabetic patients initiating insulin at 0, **2** and 5 years after diagnosis.

- 5) The URL in reference 15 should read: <http://BendixCarstensen.com/Lexis/Lexis.sas>.

The online version of the original article can be found at doi:10.1007/s00125-011-2381-4.
