ERRATUM

Erratum to: Risk of over-diagnosis of hypotension in children: a comparative analysis of over 50,000 blood pressure measurements

Samiran Ray^{1,2*} , Libby Rogers³, David P. Noren⁴, Ranjana Dhar², Simon Nadel⁵, Mark J. Peters^{1,2} and David P. Inwald⁵

© 2017 Springer-Verlag GmbH Germany and ESICM

Erratum to: Intensive Care Med DOI 10.1007/s00134-017-4843-8

This article contained two errors:

1. In the last sentence of the penultimate paragraph, the post-test odds should have been stated as 26.77, not 21. The remainder of the results are not affected.
2. The first sentence of the last paragraph should have read “These data demonstrate that use of low NIBP measurements in isolation to guide treatment for hypotension in children could lead to over-treatment”.

The authors and the publisher, respectively, apologize for these errors and any inconvenience caused.
