ERRATUM

Erratum for the Brief Note “Extended optimality in topology design” by G.I.N. Rozvany, O.M. Querin, Z. Gaspar, V. Pomezanski, (SMO 24, 257–261, 2002)

On page 258, in equation (3)

“min/ max C/f (respectively, for prescribed loads/displacements)” should read

“min Cf / max C/f (respectively for prescribed loads/displacements)”

(the expression Cf was omitted in the typesetting).

Since the sign “/” is used for two different meanings, a clearer statement would be

“min Cf and max C/f (respectively, for prescribed loads and displacements)”

On page 258, before Sub-section 4.1

Add

“In the examples, we use zero Poisson’s ratio for simplicity, but similar results are obtained with non-zero Poisson’s ratios.”
