A slightly shorter version of the above paper under the title “Optimum design of high-performance steel fibre-reinforced concrete mixes” had appeared in the *Proc Int Symp “Brittle Matrix Composites 6,” A M Brandt, V C Li, I H Marshall eds, ZTUREK RSI Warsaw and Woodhead Publ, Cambridge UK, 2000, 3–16*. The first author deeply regrets that due to an oversight this fact was not acknowledged in the paper.
