Erratum to: Theor Comput Fluid Dyn 24:465–482
DOI 10.1007/s00162-009-0173-y

The text in the original publication following equation (16) reads “... $\lambda = 0.39$ was computed using Eq. 15 with a and $b = c$ determined as $0.90D$ and $0.62D$, respectively, ...”, but it should have been rendered as “... $\lambda = 0.77$ was computed using Eq. 15 with a and $b = c$ determined as $0.62D$ and $0.90D$, respectively, ...”. As a consequence of transposing the values of the major and minor semi-axes in the ellipsoidal model, the computed value of I_A/I_T for an ellipsoidal ring (namely 0.23) was too low. The correct value is 0.45, which is only 5 % greater than the value of 0.43 determined from the results in Fig. 11.

The authors apologize to the readers for this error and would like to thank Dr. Robert Whittlesey for bringing this to their attention.
