The IAG Newsletter is under the editorial responsibility of the Communication and Outreach Branch (COB) of the IAG. It is an open forum and contributors are welcome to send material (preferably in electronic form) to the IAG COB (newsletter@iag-aig.org). These contributions should complement information sent by IAG officials or by IAG symposia organizers (reports and announcements). The IAG Newsletter is published monthly. It is available in different formats from the IAG new internet site: <http://www.iag-aig.org>.

Each IAG Newsletter includes several of the following topics:

- I. general information
- II. reports of IAG symposia
- III. reports by commissions, special commissions or study groups
- IV. symposia announcements
- V. book reviews
- VI. fast bibliography

Books for review are the responsibility of:

Meeting Announcements

Workshop on Monitoring North American Geoid Change
Boulder, Colorado, USA, October 21–23, 2009
URL: <http://www.ngs.noaa.gov/GRAV-D/2009Workshop>

Dear Colleagues,

We are pleased to announce that a *Workshop on Monitoring North American Geoid Change* is going to be held in Boulder, Colorado, USA from October 21 through 23, 2009.

The goal of this workshop is to develop a collaborative plan to use common standards to monitor the geoid model over North America, through a combination of dedicated absolute gravity campaigns and reliance on continued satellite gravity missions. This monitoring is critical to various governments in North America that have begun moving toward a geoid-based determination of their vertical datum.

Experts in absolute and satellite gravity and geoid determination are asked to attend. The few oral presentations will be limited to invited speakers, but an open poster session will be held. A tour of the MicroG/LaCoste facilities and a tour of the Table Mountain Geophysical Observatory (TMGO) will be included.

- Registration for the workshop is free.
- Hotel and registration information are provided at the URL above.

We look forward to seeing you in Boulder!

Dru Smith and Joe Henton
