The labeling and the legend of Fig. 2 were unfortunately incorrect. The corrected figure and legend are reproduced here.

Fig. 2 Photograph of fresh fourth-degree tear (pig) that has been dissected on the left. *AM* Anorectal epithelium; *I* internal anal sphincter, paler than the external sphincter (*E*). The longitudinal muscle (*L*) can be seen between *E* and *I*. Note also that *E* extends distal to the termination of *I*
