Erratum to: Int Urogynecol J
DOI 10.1007/s00192-010-1257-3

The number of animals used was 40, not 30 as stated, so the first sentence of the second paragraph of “Material and Methods” (right column, p. 192) should have read as follows:

“The experimental animals were 40 adult Sprague-Dawley rats weighing 295–435 g (Taconic, Denmark).”

The authors regret this error.
