In the subsection Atypical femoral fractures / Pathophysiology / Suppression of bone turnover, the last word of the first paragraph should have been “hypoparathyroidism”, not “hyperparathyroidism”. The sentence concerned should read “In osteosclerotic bone diseases due to decreased bone resorption, however, AFFs have not been reported, nor have they been described in other conditions associated with low bone turnover such as hypothyroidism or hypoparathyroidism.” The author sincerely regrets any confusion that may have been caused.
