Erratum to: *Economic Theory* DOI 10.1007/s00199-007-0308-6

The original version of this article unfortunately contained a few typographical mistakes. The presentation of Equation 8, Example 2.1, and 2.2 should be corrected. The corrected versions are given below.

Equation 8

$$\|\tilde{y}\|_{L^2_\varphi} = \left(\int_{\Omega} \varphi \|\tilde{y}\|^2 d\mathbb{P} \right)^{1/2} = \left(\mathbb{E}_\varphi[\|\tilde{y}\|^2] \right)^{1/2}.$$

Example 2.1

$$\|\tilde{y}\|_{L^2} = \left(\int_{\Omega} \|\tilde{y}\|^2 d\mathbb{P} \right)^{1/2} = \left(\sum_{n \in N} \|\tilde{y}(n)\|^2 \mathbb{P}(n) \right)^{1/2}.$$

The online version of the original article can be found under doi:[10.1007/s00199-007-0308-6](https://doi.org/10.1007/s00199-007-0308-6).

Example 2.2

$$\|\tilde{y}\|_{L^2} = \left(\int_{\Omega} \|\tilde{y}\|^2 d\mathbb{P} \right)^{1/2} = \left(\sum_{s=1}^S \|\tilde{y}(s)\|^2 \mathbb{P}(s) \right)^{1/2}.$$
