After online publication of the article the authors found the following typographical errors and a mistake in Figure S5:

Page 23, left column, line 21: ‘No Italians are present in the March 2010 list...’ should correctly read ‘No Italian analytical chemists are present in the March 2010 list’.

Page 23, left column, line 33: ‘Table S3’ should correctly read ‘Table S4’

Page 24, right column, line 42: ‘from 0.66 to 0.89’ should correctly read ‘from 0.60 to 0.89.’

Table S4. The position of a few countries in the list is not correct (it does not respect the decreasing order of the h -index); however all the values reported are correct.

Electronic Supplementary Material, Figure S5: The part of the graph referring to senior professors was incorrect. The correct figure is given below.
