Erratum to: Anal Bioanal Chem
DOI: 10.1007/s00216-013-7075-y

After online publication of the article the authors found the following typographical error in the Discussion section:

In the sentence "As m/z 780.8, 782.9, and 810.7 were also detected as characteristic signals to hairy cell in organ of corti by IMS analysis [27], and taking account that the hairy cells are known to be similar to odontoblasts [28], which also sense mechanical stress at the periphery in dental pulp in the same manner, the odontoblasts in dental pulp were also expected to be detected in our present analysis" the description of " m/z 780.8, 782.9, and 810.7" should be corrected to " m/z 780.5, 782.5, and 810.5".

The online version of the original article can be found at <http://dx.doi.org/10.1007/s00216-013-7075-y>.
