Unfortunately, a wrong graph of Fig. 7a was submitted to the article. The correct figure is presented here.

Therefore, the following information is not correct and should read as follows:

In the section “Stability margin” on page 6:

Line 4: “($F_{(4,28)} = 8.74$, $P < 0.0001$)” should read “($F_{(4,28)} = 10.91$, $P < 0.0001$).”

Line 7: “and significantly smaller in FC_{N+3} ” should be deleted.

Fig. 7 **a** Stability margin in the anterior–posterior direction. **b** Estimated three-dimensional trunk pitch angles at each foot contact. Significant differences are denoted by *
