**Correction to: Exp Brain Res (2016) 234:1903–1914**  
<https://doi.org/10.1007/s00221-016-4593-9>

In the original publication of the article, the corrections for the typographical errors in the equations for variance that affects the footpath ( $V_{\text{ORT}}$ ) and the total variance ( $V_{\text{TOT}}$ ) should be as following:

$$V_{\text{ORT}} = \frac{1}{(N \text{ steps})} \frac{1}{d} \sum_{i=1}^N f_{\text{ORT}}^2$$

$$V_{\text{TOT}} = \frac{(V_{\text{UCM}} \times (n - d)) + (V_{\text{ORT}} \times (d))}{(n + d)}$$
