DOI 10.1007/BF00172712

The N retention data, Table 1, as reported by the same author in this mini-review from the original research paper reported in the Can. J. Ani. Sci. 66: 1029–1038 is erroneous and thus comparisons of N retention and intake with ensilage cannot be made based on the study.

The online version of the original article can be found at <http://dx.doi.org/10.1007/BF00172712>.
