The original article was updated because some proof-corrections were not implemented. The legends to figures 4–6 were updated as follows:

Fig. 4. Heat map of the relative abundance of (a) the bacterial hierarchical probes from family to kingdom and (b) from genus to species.

Fig. 5. Heat map of the relative abundance of (a) the protozoan hierarchical probes from family to kingdom and (b) from genus to species.

Fig. 6. a, b Hierarchical clustering of the sampling sites based on the similarity of their species profiles.
