In the Materials and Methods section, subsection Limited Metabolite Sampling, third sentence, the equation was rendered incorrectly by the publisher. The final “ln” was missing in the publication. The equation should read:

$$\ln(\%FLT_t) = \ln(100) - t \{ [\ln(100) - \ln(\%FLT_{60})] / 60 \}$$

The online version of the original can be found at <http://dx.doi.org/10.1007/s00259-005-1813-0>.
