Distorting Gene Pools by Conservation: Assessing the Case of Doomed Turtle Eggs

N. Mrosovsky

RE: *Environ Manage* (2006) 38:523–531 (this issue): Unfortunately in the published version of this article, a number of errors appeared in the references. In Kamel and Mrosovsky 2005, parentheses should not appear before and after *Eretmochelys imbricata*. In Mrosovsky N 1983b, *Dermochelys coriacea* should appear as part of the article title, and not as part of the journal name. Lastly, in Rueda et al. 1992, no accent should appear in the word Canal. These references appear correctly below.
