Erratum to: World J Surg
DOI 10.1007/s00268-016-3564-4

In Discussion section, fifth paragraph, of the original article, the corrected sentence is as follows:

The size of the tip of the appendix was up to 28.68 mm, which should not affect how the appendiceal stump is closed.

The online version of the original article can be found under doi: [10.1007/s00268-016-3564-4](https://doi.org/10.1007/s00268-016-3564-4).
