Results

Table 2:

Table Title: “Imaging pathology” should be replaced by “Imaging-pathology”.

Total mRECIST: CR, 18; PR, 7; SD, 2.

Footnote: all patients were deemed within Milan criteria at the time of DEB-TACE procedure and study enrolment. Lesion diameters for No. 10 and 16 reflect values of final radiology report issued after the first DEB-TACE procedure, which differed from the preliminary radiology report and the interventional radiologist’s assessment.

Discussion

First paragraph, second line, “small (≤ 3 cm) HCCs” should be replaced for “HCCs measuring ≤ 5 cm”.
