Words about Numbers

Nicole Yunger Halpern

How do you
measure a line?
In feet or meters,
meter or rhyme?

Do rhythms
or do algorithms
better keep
your thoughts with them?

Could you draw
figures of speech
if you had
a compass in reach?

If armed with compass,
quotes, and quips,
would you make an ellipsis
or an ellipse?

Ellipses eclipsed
turn hyperbolic;
do hyperboles
turn ironic?

From irony
could you make steel?
Does wordsmithing have
more appeal?

Do you read proofs
or proofread reads?
Do quarter-rhymes
half-suit your needs?

Lovers of puns,
pi, and logs:
When did you last
dialogue?
