Erratum to: Curr Microbiol (2011) 62:539–543 DOI 10.1007/s00284-010-9741-z

The original version of the article entitled “*Photorhabdus luminescens* subsp. *kleinii* subsp. Nov. (Enterobacteriales: Enterobacteriaceae)” (Current Microbiology, 2011, 62: 539–543) contained a statement in the first line of the last paragraph in **Introduction** section “In this study, symbiotic bacteria associated with *Heterorhabditis georgiana* strains were isolated for the first time”. The correct statement should read as “In this study, symbiotic bacteria associated with three *Heterorhabditis georgiana* strains

were isolated”. Also the statement “This is also the first description of the bacteria associated with the nematode *H. georgiana*” in the last paragraph of Discussion section should be removed. This erratum is made due to an unintentional omission of a paper by Shapiro-Ilan et al. (2009): Characterization of biocontrol traits in the entomopathogenic nematode *Heterorhabditis georgiana* (Kesha strain) and phylogenetic analysis of the nematode’s symbiotic bacteria (Biological Control 51: 377–387). Interestingly, the two papers report completely different subspecies of *Photorhabdus luminescens* to be associated with the two different strains of the same nematode species.

The online version of the original article can be found under doi:[10.1007/s00284-010-9741-z](https://doi.org/10.1007/s00284-010-9741-z).
