Erratum to: Coral Reefs (2009) 28:677–680
DOI 10.1007/s00338-009-0498-4

The authors regret the inaccurate labeling of the Y-axis in Fig. 1. The printed and online version of the article should have the figure displayed as follows:

Fig. 1 Coral spawning response to alteration of sunset time. Colony number on the X axis refers to the individual clonal sample number. *Squares* indicate spawn time in a 2 h early sunset tank, *circles* indicate spawning by a sample in the 1 h early sunset tank, and a *triangle* indicates spawning by a coral in the control (normal sunset) tank. Three samples (3, 4, 6) spawned under two different sunset regimen, and one sample (5) spawned under all three regimen

The online version of the original article can be found under doi:[10.1007/s00338-009-0498-4](https://doi.org/10.1007/s00338-009-0498-4).
