Systemic and cavernous plasma levels of endothelin (1–21) during different penile conditions in healthy males and patients with erectile dysfunction

Published online: 20 December 2001
© Springer-Verlag 2001

The article by AJ Becker et al. in World Journal of Urology (2001) 19: 267–271 was inadvertently published again with a slightly different layout on page 371–376 of the same volume. For this reason have these pages been removed from LINK.

We apologize to Dr. Becker and his colleagues and to our readers for this error.
