Erratum to: Exp Fluids DOI 10.1007/s00348-006-0230-x

Due to a processing error, the presentation of Fig. 7a, b and the corresponding figure capture was incorrect.

The correct figure with legend is given here.

Fig. 7 Comparison between average and instantaneous velocity fields at the exhaust. **a** The mean flowfield, obtained from the averaging of 200 couples of images; **b** an instantaneous raw image, peak validated with no interpolation— $Re \approx 24,400$, $G \approx 2.76$. Erroneous vectors have not been removed from this figure to show the good quality of the instantaneous maps
