This paper requires the following corrections:

1. The term “interaural intensity difference” and its abbreviation IID, should read “interaural level difference” and ILD, respectively, throughout.
2. Figure 1a–c: The abscissa label is incorrect. It should read “Interaural level difference (dB) contralateral level re ipsilateral”.
3. Owing to a lapse in communication on the part of the authors:
 - (a) the final sentence of the Acknowledgements should read:
“Animal handling and experimental procedures were approved and performed under a Project Licence granted by the UK Home Office”
 - (b) the address for Adrian Rees should read:
Institute of Neuroscience
Faculty of Medical Sciences
Newcastle University
Newcastle upon Tyne
NE2 4HH, UK
