Brief biography Dr. Mary Connolly

Dr. Mary Connolly MB, BCh, FRCP(C), FRCP(I), FRCP (Edin) is a Clinical Professor of Paediatrics (Neurology) and is Chief of Paediatric Neurology at BC Children's Hospital and The University of British Columbia, Vancouver, Canada. She is co-director of the Neurosciences Program at BC Children's Hospital and director of the Epilepsy Surgery Program. She received her medical school training at Trinity College, Dublin. She trained in internal medicine and paediatrics in Ireland and in paediatric neurology at the University of British Columbia. She completed an epilepsy fellowship at Children's Hospital Boston. Her research interests include outcomes following epilepsy surgery in children and psychiatric comorbidity in children with epilepsy. She has also led a project to develop an Epilepsy Program in Guangzhou Children's Hospital in Guangdong, China. She was President of the Canadian Association of Child Neurology from 2009 to 2011. She is a member of the Classification and Terminology Commission of the International League against Epilepsy. She is an Associate Editor of The Canadian Journal of Neurological Sciences.
