Erratum to: Clim Dyn
DOI: 10.1007/s00382-009-0738-x

An error was made in the original publication of this article in the levels of significance for Figs. 1 and 2a. This error does not alter the scientific conclusions of the paper or any of the points made in relation to the results of Figs. 1 and 2a. None of the other figures are affected.

The captions to Figs. 1 and 2a state that the significance levels used are 95%, whereas in fact they are close to 85%. The areas of significant change shown for Figs. 1 and 2a are slightly reduced if a 95% level is used as was intended, but the figures remain very similar in appearance.

The online version of the original article can be found under
