In the original publication of the article Eq. (2) was published incorrectly.

In the second term on the right side of the equation, inside the parentheses, a minus sign is missing in between “cor” and the ratio of SD_{fct}/SD_{obs} . The original article has been updated accordingly.

$$MSESS = cor^2 - \left(cor - \frac{SD_{fct}}{SD_{obs}} \right)^2 - \left(\frac{mean_{fct} - mean_{obs}}{SD_{obs}} \right)^2 \quad (2)$$
