Erratum to: Clin Res Cardiol DOI 10.1007/s00392-017-1099-9

Unfortunately, an incorrect description of the contributions was provided in the Acknowledgements section. The correct Acknowledgements read as follows:

MB designed the study and managed research process, MB, AS and VK chaired data acquisition and analysis and interpretation of results, VK wrote the report. MB, AS and VK had full access to all of the data in the study and took

responsibility for the integrity of the data and the accuracy of the data analysis. Data were analyzed by SH and JS (DSE) and EA (CMR). MDF developed the medical-technical approach of image fusion. AK contributed to statistical interpretation of results. MK and NM contributed to data analysis and interpretation and reviewed the report. MB, NM and SH contributed to the writing of the report.
