The mentioned study was entirely performed at the Department of Orthopaedic Surgery of the University of Frankfurt/Main (Germany).

Three of the co-workers changed the hospital after completion of the study and thus changed their address.

Unfortunately the address of the corresponding author was changed, too without knowledge of the senior author.

Thus the correct address of the authors should be as follows:

Dirk Proschek · Konstantinos Kafchitsas · Michael Rauschmann · Andreas Kurth · Florian Geiger (✉)
Department of Spine Surgery,
Hospital for Trauma and Orthopaedic Surgery
Friedrichsheim, University of Frankfurt,
Marienburgstraße 2, 60528 Frankfurt am Main,
Germany
