Dear reader,

Archives of Gynecology and Obstetrics publishes results of scientific work from all subspecialties in the field. The journal received more than 1,600 manuscripts in 2014. More than 10,000 institutions worldwide have access to Archives via electronic subscriptions. We have decided that from 2015 on, the printed edition will cease and the journal will become available only in electronic format. This decision has been taken considering that close to 100 % of all the subscriptions is electronic. We hope that this change meets the needs of the readership. Also, we would like to thank you for your support, the numerous contributors and the outstanding work of associate editors, editorial board members and reviewers.

Conflict of interest None.
