Unfortunately, Eq. 3 in the Abstract and in the Discussion section has been published incorrectly in the original publication. The correct Eq. 3 is shown below:

$$\Delta_{\text{NNO}} = \frac{\left\{ \log \left[0.858(\pm 0.021) * \frac{X_{\text{Fe}}^{\text{liq}}}{X_{\text{Fe}}^{\text{Mtc}}} - 1 \right] - 0.139(\pm 0.022) \right\}}{0.193(\pm 0.004)}.$$

(3)
