Published online: 12 February 2014
© Springer-Verlag Berlin Heidelberg 2014

Erratum to: Histochem Cell Biol (2014) 141:43–55
DOI 10.1007/s00418-013-1159-9

The Author would like to correct the error in the original published article. The corrected text is given below.

The first sentence of the abstract of the above paper was inadvertently changed during the production process. The corrected should read as follows:

“Ever since its description and the generation of its defining antibody some 20 years ago, NeuN (*Neural Nuclei*) has been an invaluable tool for developmental neuroscientists and neuropathologists to identify neurons and follow their normal or malignant development.”

The online version of the original article can be found under doi:[10.1007/s00418-013-1159-9](https://doi.org/10.1007/s00418-013-1159-9).
