**Erratum to: Int Arch Occup Environ
Health (2016) 89: 823–833
DOI [10.1007/s00420-016-1123-9](https://doi.org/10.1007/s00420-016-1123-9)**

In the original publication, the direction of the response scale for lifting and carrying at work was inaccurately described in the method section (page 826, paragraph “assessment of possible confounders”). The accurate description of the scale should read: “ranging from 1 (“almost all the time”) to 6 (“never”)”.

This will not affect any part of the results, discussion or conclusion of the paper.

The online version of the original article can be found under doi:[10.1007/s00420-016-1123-9](https://doi.org/10.1007/s00420-016-1123-9).
