Unfortunately there were some errors in Equations 4 and 5. These equations are given correctly below:

$$Q_s \approx k_1 B_{tot} \sqrt{1 - \gamma_s} / (K_b + K_b^0) \quad (4)$$

$$Q_s \approx k_1 B_{tot} \sqrt{1 - \gamma_s} / (K_b + K_b^0) \cdot l/L \quad (5)$$

The online version of the original article can be found at
