Intragenic polymorphic missense mutations in the *XLRS1* gene in families with juvenile X-linked retinoschisis

Published online: 16 September 1999

Hum Genet (1999) 104:526–527

Unfortunately, the nucleotide changes reported in this recently published Letter to the Editor are intronic wild-type sequences, and have nothing to do with the mutations as claimed in the paper. Therefore, we, the authors, retract

the above publication. We apologize for the inconvenience caused by this Letter to the Editor for other investigators.
