Erratum to: Comput Mech
DOI 10.1007/s00466-008-0268-0

The original version of this article unfortunately contained a mistake. The presentation of Fig. 7 was incorrect. The corrected figure is given below.

Fig. 7 Yield surface of SFG model and a stress–suction path with increasing suction. The initial state is inside the initial yield surface. After the first intersection, hardening takes place and the yield surface advances to the new position as shown
