Unfortunately Article “Ilbeyli et al. (2007) Geochemical constraints on the genesis of collision-related intrusive rocks from western Anatolia, Turkey. Int J Earth Sci. doi: [10.1007/s00531-006-0103-9](https://doi.org/10.1007/s00531-006-0103-9)” is withdrawn by the authors. Therefore the article is not valid anymore. Instead of Ilbeyli et al. (2007), please see Aydoğan et al. (2005) which is already cited in the text.
