This special issue consists of selected papers presented at The 4th ASME-ISPS/JSME-IIP Joint International Conference on Micromechatronics for Information and Precision Equipment (MIPE) held in Santa Clara, CA, USA on June 18–20, 2012. The conference covered broad topics on information storage and processing systems. Presenters were invited to submit full length journal papers for publication in MST. All submitted papers were refereed according to the rigorous journal standards. The review process was coordinated by Prof. James Chang. Fifty-two papers were accepted for publication.

We hope that readers find the paper in the issue to be informative.
