The online version of this article unfortunately contained a mistake. There is a misspelling in the title of the manuscript and the word "protoccoleces" should be replaced with "protoscoleces". Thus the correct title of the manuscript is "High scolicial effect of *Zataria multiflora* on protoscoleces of hydatid cyst: an in vitro study".

In addition, the published Fig. 2 is incorrect, and should be replaced with the image below.

Fig. 2 Dead protoscoleces after exposure to *Z. multiflora* extract and staining with 0.1% eosin
