Erratum to: Acta Diabetol (2014) 51:155–157
DOI 10.1007/s00592-013-0501-y

Unfortunately, in the print and online version of article, the compound “GY4134” was published incorrectly. The “GY4134” compound should be replaced by “GY4137” throughout the article.

Further, in “Methods”, the concentration of AP39 was incorrectly published as 10 mM and the correct concentration of AP39 is 10 nanoM.

The online version of the original article can be found under doi:[10.1007/s00592-013-0501-y](https://doi.org/10.1007/s00592-013-0501-y).
