An error appeared in the above-cited article.

In the Abstract, in the “Results” subsection (page 29, line 10), and in the Results section (page 30, line 5) it was incorrectly reported that an overall total of 1035 chemotherapeutic courses were administered. The total number of courses was actually 1020. It was confirmed that this mistake did not influence any other results in this article. The authors sincerely apologize for the error.
