In a paper published last year in *Archives of Virology* recombination occurring in mumps virus has been reported (Zhang et al., Arch Virol. 2010 Sep;155(9):1493–1496. Epub 2010 Jun 25.). This conclusion was based on the complete genome sequence of mumps virus strain 9218/Zg98 deposited in GenBank in January 2008 by Dubravko Forcic, Zagreb, Croatia (dforcic@imz.hr). Since this sequence proved to be erroneous, the paper has been retracted.

The online version of the original article can be found under doi:[10.1007/s00705-010-0733-x](https://doi.org/10.1007/s00705-010-0733-x).
