The reply of the Editor-in-Chief refers not to the letter by A.M.H. van der Veen “Burden of proof and the credibility of uncertain statements” (<http://dx.doi.org/10.1007/s00769-003-0636-6>) but rather to the article by A.M.H. van der Veen “Measurement uncertainty and doping control in sport” (<http://dx.doi.org/10.1007/s00769-003-0644-6>).

The address of the corresponding author has been corrected.
