Upon request of the authors, this article is retracted because substantial parts were simultaneously submitted to and published in “A first-principles based chemophysical environment for studying lignins as an asphalt antioxidant” (Pan, T.; Construction and Building Materials, Volume 36, November 2012, Pages 654–664 DOI: [10.1016/j.conbuildmat.2012.06.012](https://doi.org/10.1016/j.conbuildmat.2012.06.012)).
