Hernia (2003) 7:85–88

Discussion section:

2nd paragraph, first sentence should read:

In order to reduce the risk of the adhesion, the use of a hydrophobic material with reduced porosity (ePTFE) has been contemplated for several years [10].

3rd paragraph, first sentence should read:

Apart from the permanent smooth and hydrophobic membranes [14], some next-generation devices have recently been developed and have shown very good anti-adhesive properties [1, 15, 16, 17].
