In the published original article, Table 3, the authors noticed an error in the order of *DRD3* SNPs which were used for

haplotype construction. The 1st and 2nd SNPs were interchanged and the haplotypes were written in 3' to 5' direction.

The data for the other markers (*DRD2* and *DRD4*) remain unchanged.

The correct *DRD3* data are given here:

Table 3

Gene	Category	Haplotypes	No. of chromosomes		χ^2 (<i>p</i> value)	OR(95%CI)
			Cases	Controls		
<i>DRD3</i>	North India	G-G-T-G	10	2	5.47 (0.02)	5.21 (1.12-23.45)
